

I am tired of being harrassed at home by constant sales calls and know plenty of others that feel exactly the same. As a matter of fact, I don't know ANYONE who wants to get these calls.

I appreciate the stand Indiana has taken to protect us from such invasions of our privacy. Overturning or weakening of Indiana's laws would show, once again, that the rights and liberties of individual citizens take a back seat to corporate monies and power. There is no reason that individuals shouldn't have the right to determine who and what comes into their own homes.
